Quality Teaching & Learning - Literacy

Literacy is the foundation on which learning and achievement is built. Literacy encompasses the knowledge and skills students need to access, understand, analyse and evaluate information. Good literacy enables students to:

- make meaning
- express thoughts and emotions
- present ideas and opinions
- interact with others
- participate in activities at school and in their lives beyond school.

Literacy refers to reading, writing, speaking, viewing and listening effectively in a range of contexts. In the 21st Century, the definition of literacy has expanded to refer to a flexible, sustainable command of a set of capabilities in the use and production of traditional texts and new communications technologies, using spoken language, print and multimedia.

Within the framework of the new Australian Curriculum, literacy is seen a general capability that is relevant to all learning. Literacy is critical to lifelong learning. Schools are expected to explicitly outline how they teach literacy. Our school is developing a Literacy Improvement Plan: our focus is on a whole of school approach to the teaching and learning of literacy capabilities. We believe that all of our teachers in all of our subjects, years 8-12, are teachers of literacy. Our Literacy Plan is central to our school's improvement planning. We are implementing strategies that will equip all of our teachers with the knowledge and skills to effectively teach literacy in their subject area. Our Literacy Improvement Plan promotes:

- Successful literacy pathways for all learners
- Quality literacy teaching
- Challenged and engaged literacy learners
- School leadership that has a focus on literacy improvement
- Partnerships with families to support and promote student literacy
- Use of evidence, data and research to support our improvement plan

The National Assessment Program for Literacy and Numeracy (NAPLAN) provides us with data about the literacy capabilities of our students. We analyse this information when students arrive at GGHS and we use the information to determine the interventions we need to make with individual students to support the development of their literacy skills. We have four teachers on staff who are trained as facilitators of Tactical Teaching, Reading. These facilitators will be training our teaching staff on how to optimise the teaching of reading and comprehension processes – these capabilities impact on student learning in all subjects. Our Year 9 students will be undertaking their NAPLAN testing in the next couple of weeks from 15-17 May. This will provide us with further data on how our students are progressing with their literacy development.

I hope that you agree that good literacy skills are the building blocks for effective learning. Please don't hesitate to contact us if you have concerns about the literacy capabilities of your son / daughter

Welcome to new staff

We have a number of new staff with us this term. Welcome to:

- Vanessa Tonkins who is teaching English and SOSE while Raine Simioni is on leave.
- Helen Sobol assumes duties in the library for two days a week following the retirement of Janina Vreugdenburg
- Chris Sellars who is teaching Mathematics and Science while Tony Adams is on leave
- Ursula Browne who is a School Admin Officer supporting the administrative functions of the school

Paul Wilson

Principal

Some pointers on being successful at school

The following information was sent out to all year 8 – 12 students to help them identify and focus on strategies that may help them do better at school. It would be helpful if parents were aware of this and helped their child select successful habits and strategies to employ at school and home to maximise chances of success.

For all students, success at school is important. Being successful improves your chances of doing the things you want to achieve in life. All students can improve their results and achieve success if they make the effort. Some things that will help include:

- Regularly attending school and classes
- Doing your best and being engaged in class and home work
- Getting on well with all your teachers and other students
- Managing your time at school and home to meet deadlines
- Setting and achieving manageable goals
- Being organised and ready for all classes
- Actively seeking help if needed

Doing your best at school also requires you to develop some good learning habits and these include:

- Being persistent and trying even if it's difficult
- Listening carefully and understanding what's being said
- Thinking about and reflecting on your thoughts
- Striving for accuracy in your work
- Being creative, imaginative and innovative
- Questioning and clarifying your ideas

Your teachers, parents and friends can help you develop these good habits, as being successful is not an accident. It happens because you choose to make it happen.

"Success means having the courage, the determination, and the will to become the person you believe you were meant to be." George Sheehan

Mike Meredith

Senior Leader Middle School

DRUG BEAT WORKSHOPS

During Week 8 of Term one, all Year 9 Health and Year 12 Health Studies students attended presentations organised by Drug Beat SA. Drug Beat is an organisation which helps people who have become addicted to drugs and their families live lives free of addiction. At Shay House, counsellors assess and support people in reducing their drug dependency in order to become drug free.

We had the privilege of having Ann Bressington (Independent Member of SA Parliament) to speak to us. Here are some of the students' reactions.

Last lesson we heard a lady speak to us about drugs and their effects. Her daughter died of a drug overdose at the age of 22. She had started smoking at the age of 12 and quickly developed an addiction. I had always known it is bad to do drugs but hearing her talk, it makes me more determined not to do drugs. Taylin

The presentation was very powerful and the message was very clear. Listening to the speaker's story was eye opening. She had experienced and witnessed most of the things she talked about. Carly. Yr. 9.

I learnt how much of an effect drugs have on your health and how addictive they can be. I also learnt how they can take over your life. Chris.

I learnt that the effects and process of addiction is a lot more complicated and serious than I thought. That there is help out there-------people can be saved. Daniel. Yr. 9.

We have had Ann speak to our Year 9 students for more than eight years and wonder how many students she has influenced to not take drugs. She is a passionate advocate for Drug Beat, being its founder and CEO. Funding for Drug Beat will terminate on June 30th, 2012. This action will be a loss to the safety and education of our students. This decision needs to be overturned by community action such as e mails to our Parliamentarians.

Ruth Burton. Coordinator, Home Economics/ Health.

May 2012

External online services – Basic info

Golden Grove High School provides various online external services to staff and students. Listed below are broad areas of remotes services provided, detailed information is provided to students.

- School based email
- File Access
- Application access
- Remote desktop

Golden Grove Citrix Remote applications

GGHS uses the Citrix software to provide our students with access to applications they would not normally have at home,

eg; Career voyager, Foodworks, Inspiration, Office 2010 applications. This list of available application is constantly expanding. This can save families from having to purchase additional software for student to complete work.

The Citrix software also allows students to access a remote desktop from home; this gives the look and feel of a school computer, just as if you were at school. Work can be printed to selected school printers.

Secure printing that allows student to send work from home to school printers and collect the work by entering their PIN is being developed.

This Citrix software is the same industry based software used to allow students, to use their own computers at school without comprising the school system or their personal laptop.

The Citrix system will install some client software onto you home computer or school laptop in order to make the secure connection to the school system.

Link is on Left hand side of school internet site "Citrix" https://citrix.ggcs.sa.edu.au

Campus Portal Services

The campus portal provides central links to;

- Each schools web site
- Link to school based web mail
- Access to school files system. Via this link students can access their network files, save on their H: drives, and any shared files teachers have made available.
- Campus based remote desktop is being developed

Link is on left hand site of school internet site "School Portals" http://www.ggcs.sa.edu.au

GGHS IT Manager

FAMILIES TO HOST JAPANESE STUDENTS FOR TWO WEEKS

It is with great pleasure that we advise that in 2012, Golden Grove High School is going to host a third Study Tour Program to a group of 15 students from Toyo High School, Tokyo, Japan. These students will come to Golden Grove from 22 July – 2 August 2012.

We believe that our school and community offer excellent facilities to host this visit.

We are enthusiastic about this visit and want our school community to be involved. We would like to invite you and your family to participate in this program.

We need to provide homestays for these students. The homestay provider will receive around $244 for each week's accommodation or part thereof. The responsibilities for homestay include providing meals, seeing that the students get to school and looking after them on weekends. The benefits of homestay include learning about another culture and language, developing lasting friendships, socializing with other families hosting overseas students and sharing the pleasure of showing off our local environment and culture.

If you are able to support our school by having a guest in your home for two weeks, or would like more details, please contact Carlos Gallardo on 8282 6400 or email carlos.gallardo@goldengrovehs.sa.edu.au.

Kind regards,

Carlos Gallardo

LOTE Coordinator

The National Child Oral Health Survey is Here!

The purpose of the National Child Oral Health Survey (South Australia component) is to investigate the impact of dental disease in child populations in South Australia.

Your school has kindly agreed to participate.

Over the next few weeks, an invitation will be sent home to parents via randomly selected students. Parents/guardians will be asked to fill out a Survey questionnaire, then on designated days, our trained, professional clinicians will visit the school to record the oral health status of the participating students including the presence of decay, any existing fillings, trauma to front teeth (fractures/chips), gingivitis, plaque, enamel defect and any ulcers or other tissue trauma in the mouth. This examination can take up to 20 minutes. No treatment will be given, as this is a research Survey to take a snap shot of the current oral health status of our 5 – 14 year olds in South Australia. However, should our clinicians detect an area of concern, parents will be notified in order that treatment can be sought through the school dental service or the family dentist. The collective results will provide policy and planning direction for services in your community and eventually be absorbed into a National study.

Should your child be selected, South Australian Health would be very grateful for parental consent for your child's inclusion in the study. We can't do this without you!

GLOBAL DANCE CONVENTION

Global Dance Convention is held every April in Sydney and features some of the best choreographers from Los Angeles. This year, Miss Haines, Mrs Young and six senior dance students attended the four day event. It was an amazing event and all students and teachers returned to Adelaide weary but inspired! Here is a brief summary of our trip.

Upon arriving in Sydney, we were transported to Olympic Park in Homebush. This was to be our location for both our hotel and the convention. Mrs Young and I took the students into Sydney via train for a nice dinner on the Harbour. For some of the students, it was the first time to Sydney, so the obligatory 'sight seeing' photos of the Harbour Bridge, Luna Park and Opera House were undertaken. During dinner, we surprised the students with a ticket to the Australian Ballet who were performing that night in the Opera House. It was a fantastic triple bill performance with our favourite being the collaboration of the Australian Ballet and Bangarra Dance Theatre in 'Warumuk'. The year 12 students will now be able to write their dance essay with first hand experience of the dance piece, certainly an advantage!

Day two saw the students on a shopping excursion around Sydney with Mrs Young, including the Bloch shop (a must for all dance students) while I attended the teachers day of dance classes. We met up for dinner and having just finished nine dance classes, I prepared the students for the pain they were about to experience.

Finally, the time came for the student workshops. Two days, five choreographers, twelve classes of eight difference genres – this is dance heaven….and hell. It is a fantastic opportunity for these students to work with some of the biggest names in dance choreography and to see the level of the other dancers in their age group. The knowledge of current audition trends, latest techniques and music, along with networking for future pathways, is invaluable to the students. They learnt how much they can push themselves to achieve the most out of their bodies and how to overcome the mind games we all play with ourselves when something is 'too hard'. The convention finished with a faculty performance which was truly amazing followed by photos with all the choreographers.

The students have returned to school and dance class with a new determination and a hunger to achieve the best they can. We are extremely proud of how the students conducted themselves at the workshops, never giving up and trying new styles of dance. It certainly was a dance experience!

Miss Haines

TALENT NIGHT REVIEW

Talent night was held on Tuesday the 1st of May. Encompassing a musical theme, acts were asked to portray a piece relative to the musical scene. The night was a great success, with performances surpassing criteria. The rather impressive audience, although relatively smaller than previous years, was completely optimistic and encouraging towards all acts. The high performance standards presented on the night, left the judging panel with a gruelling decision. Kavita Shah (Year 10) took out gold with a voice which left the crowd speechless. Nicola Carbone (Year 11) and Georgia Bright (Year 9) came in a close second and third, also dazzling the crowd with their marvellous voices.

Congratulations to all contestants, all of whom won the hearts of those there on the night. All proceeds from the food, raffle tickets and entry tickets sold will go towards the sponsoring of our two World Vision children. So thank you to teachers, the Student Voice home group and stage technicians who worked throughout Term 1 and Term 2, for their great efforts in organising and exhibiting the remarkable display of talent there is at Golden Grove High School.

'BED'-UCATION - Adolescent Sleep & Well Being

Adolescents require around 9-9.5 hours of sleep per night due to their increased growth rate and for their brain to carry out functions like:

- Storing information
- Linking information
- Concentrating and
- Problem solving

IS YOUR CHILD GETTING THIS?

If not, it can cause many problems in the following areas:

- Behaviour (impulse control and concentration reduced)
- Emotion (depressed and moody)
- Sporting and academic performance reduced, including truanting
- Poor decision making
- Lacking enthusiasm
- Poor immune system

POOR SLEEP = POOR LEARNING – SO WHAT CAN YOU DO?

- Try to get your child's sleeping pattern into a routine. This includes weekdays and weekends, no more than one hour difference. However, they may need to catch up on some sleep on the weekends so use 'napping' for ONLY 20 minutes around the 4pm mark.
- Don't allow TV, Video games or computers (including mobile phones) use 30-60 minutes before bed time.
- Have breakfast outside as the natural light can assist in your child waking up.
- Exercise is great, but not close to bedtime as it will stop your child from falling to sleep.
- No caffeine after dinner time.

NEWSLETTER NEWS

We hope that you like the new format of our newsletter. We intend to move the delivery of our newsletter to an electronic delivery system. We ask all parents/caregivers and community members to help make this transition a positive one. Could you please send an email to newsletter@goldengrovehs.sa.edu.au with your name, student's name and year level and your preferred email address. Alternatively, if you would prefer to receive an SMS message informing you that the newsletter is available on our website, please give us your mobile phone number along with your name, student's name and year level and we can arrange this as well.

Cruiz'N Kilburn

Cruiz'N Kilburn is a structured program held Thursday evenings after school.
YWCA of Adelaide will be running a range of sports and workshops which are all FREE
Food and Drinks provided.

Age 12-16
Thursdays After School
3:45-5:45 PM
Kilburn Community Centre
59 Gladstone Avenue

Looking for something fun to do on Thursday afternoons??
Then why not come along to...

Cruiz'N Kilburn

Fun, food, games, sports, friends!

Each week we have a range of activities available including soccer!

Street team

term two 2012

April 23– June 29

YWCA of Adelaide runs creative workshops and projects led by young people for young people

May
Catch up– Meet the new members, catch up with old ones too.
Mothers Day– Make cool gifts for your love ones.
Paper Mache– Create your own funky bowl.
Reconciliation Week– Aboriginal art workshop.

June
Becoming a leader– Build your teamwork and leadership skills.
Active lifestyle– try a new active Activity.
Chill out– Wind down the term by participating in a relaxed activity.

*Subject to change

Age– 12-18
Wednesday
4-6pm
Hive 12 –Twenty Five
926 North East Road
Modbury

Interested?
Contact Ellie to RSVP on 0488 091 340
or email ellie.simmons@ywca.com.au
