The One+ Campus comprises three schools; Gleeson College, Pedare Christian College and Golden Grove High School. We are committed to excellence in teaching and learning and we work creatively and collaboratively to expand learning opportunities. We have worked in partnership to grow student pathways and opportunities for success. This has been a strong feature of One+ for over 30 years serving more than 3000 students on our Campus.

One+ is a unique collaboration that enhances the learning opportunities for all students in our campus schools, enriched by innovation and choice.

Shared Learning – What is it?
Students studying SACE (Year 11 and Year 12) have several options to personalise their educational pathway:

+ Shared Learning VET - In line with the One+ principle of Shared Learning, students may study one or more of these courses. The course may include students from all three schools and may be hosted by a teacher or trainer from any of the schools.

+ Campus Study – At SACE Stage 1 or Stage 2 students may elect to study any one Campus subject. This means attending a subject hosted at one of the other schools on the One+ Campus. Students have the option to make use of these enhanced subject opportunities in order to best fit a student’s desired pathway. This effectively allows a wide range of subject choices and provides Flexibility in student timetables.

Taking advantage of Choice, Opportunity, Success
The process for identifying interest and intent to study Campus subjects or via Shared Learning VET is as follows:

+ Browse the curriculum handbook for each site to check if there are subjects offered at one of the other sites best suited to your pathway:

+ Gleeson College https://www.gleeson.sa.edu.au/curriculum.html (Stage 1 approximately pg. 54)

+ Take advantage of opportunities to find out more information from subject counselling sessions, One+ Careers Expo, teachers, and VET coordinators.
+ Indicate interest in your online selections.
+ Attend Course Counselling session to discuss your interest and determine the suitability of courses for your identified pathway. A formal application and the processes will be explained at this point.
+ Return the completed application form to your own school.
+ Class viability will be determined by demand and staffing.

Support in Learning
All students taking advantage of Campus Study or Shared Learning VET are inducted and supported in their study outside their own school. Progress checks and communications between schools is routine.

To see what Shared Learning may offer to enhance your pathway, visit each school’s Curriculum Handbook or find the One+ VET information booklet at:
