SACE completion and supporting students with post-school pathways at Golden Grove High School is embedded in our School Improvement Plan, Teaching and Learning and Wellbeing practices.

Subject recommendations are collaboratively agreed upon by the School Leadership Team and directly align with SACE subject outline expectations, to ensure students have the skills and capabilities to be successful in the SACE. Minimum requirements are set to ensure students have the skills and knowledge to successfully complete a Stage 2 subject.

To support students, the Senior Sub School Team leaders will be undertaking a progress check in Term 4, week 5 to ensure students have the capacity to achieve the minimum requirements to complete the SACE in 2022. Further checks will also be undertaken at the end of Semester 2.

By signing below, all parties understand and accept that undertaking a subject against recommendations may jeopardise SACE achievement and completion.
